

JORGE MARTINEZ

PROFESSIONAL PROFILE

Computer & Equipment Technology Specialist with hands-on experience supporting hardware, software, warehouse automation, and end users in fast-paced environments. Skilled in troubleshooting computers, printers, networking, and automated equipment while minimizing downtime. Experienced with Locus Robotics, warehouse technology, and technical support. Bilingual (English/Spanish) with strong problem-solving, communication, and customer service skills.

PROFESSIONAL EXPERIENCE

Computer & Equipment Technology Specialist

ALO – Fort Worth, TX | Oct 2025 – Present

- Install, configure, and troubleshoot desktops, laptops, printers, scanners, and peripherals.
- Provide Tier 1/2 technical support for hardware, software, and network issues.
- Support warehouse systems including FDM4, SALT, CyberQuery, ZPL, and PuTTY.
- Perform preventive maintenance and repairs on warehouse automation equipment.
- Monitored 200+ Locus robots during peak operations, ensuring accurate travel to picking, induction, drop-off, and charging locations while minimizing downtime.
- Diagnosed robot issues, documented findings, and created support tickets through email for engineering and vendor follow-up.
- Collaborated with Operations and IT teams to resolve equipment issues quickly.

Multimedia Designer & Marketing Specialist

Freelance | Remote | 2017 – 2025

- Designed digital and print marketing materials, branding, presentations, and social media campaigns.
- Managed 200+ creative projects monthly while meeting tight deadlines.

- Produced logos, animations, video edits, email campaigns, and print-ready artwork.

Multimedia Designer

Fort Worth Star-Telegram | 2010 – 2017

- Designed print and digital advertising campaigns for local and national clients.
- Produced branding, presentations, marketing materials, graphics, and multimedia content.
- Collaborated with clients and internal teams to deliver high-quality creative solutions.
